Embracing a Revolutionary Pledge with Unwavering Generosity: The Dedicated support of the VIP20's Roaring 20.

Last month, a surprising call lit the spark of possibility when a colleague shared news about an unexpected interest in the Hearts of Gold capital campaign. Initially shrouded in ambiguity, this call swiftly transformed the landscape of our capital campaign.

At the Hearts of Gold Community School in Uganda, the students' dire need for improved classrooms aligns perfectly with this timely surge of support. Their current classrooms, mere dilapidated wooden structures, stand on the brink of collapse, desperately requiring an urgent upgrade. Contemplating the tangible reality of new, sturdy brick-and-mortar classrooms feels almost like a dream. This momentous conversation wouldn't have materialized without the unwavering commitment of the VIP20 team, spearheading this remarkable change.
